

PJLA Update Notification

Update Notification # 70

Update Notification Release Date: February 28, 2024

Form/Procedure/Policy: EPA Method 1633

Attention Applicant/Accredited DoD/DOE accredited Organizations

As you may be aware EPA Method 1633 has now been finalized and released. If you have implemented this new method and have PFAS analysis by Draft EPA 1633 on your scope of accreditation for the applicable matrices, you can request to have this updated on your scope of accreditation via documentation review for a minimal charge.

We will require the following documents from you in order to proceed with the documentation review:

-Updated Final Method EPA 1633 SOP- The SOP shall:

- Specify if Performance Based Approaches will be applied
- Clearly identify any changes to the method
- Include the requirements from Table B-24.

-Completed Scope Update Verification Form including any additional analytes

Please contact your accreditation program assistant at our headquarters office to request this update.

Thank you!
